

Deco Corner

COMPANY PROFILE

Architectural materials and
specialized finishing solutions.

SAUDI ARABIA / JEDDAH / TABUK

About Deco Corner

Deco Corner is a specialized supplier of architectural, construction, and finishing materials across Saudi Arabia. We serve residential, commercial, hospitality, and large-scale development projects through a diverse portfolio of reliable products and customized material solutions.

VISION

To become a trusted leader in architectural materials and specialized finishing solutions.

MISSION

To provide reliable products and tailored solutions that meet the technical, functional, and design requirements of every project.

WHY DECO CORNER

We combine a diverse product range, technical expertise, customized solutions, and reliable support throughout every stage of the project.

QUALITY COMMITMENT

We carefully select our products and suppliers to ensure consistent quality, durability, performance, and compliance with project specifications.

PRODUCT

01

Architectural Trims & Profiles

- Tile & Floor Trims
- Wall Trims
- Edge & Corner Trims
- Shadow Gap Profiles
- Movement Joint Profiles
- Expansion Joint Profiles
- Skirting Profiles
- Stair Nosing Profiles
- Custom-Made Trims & Profiles

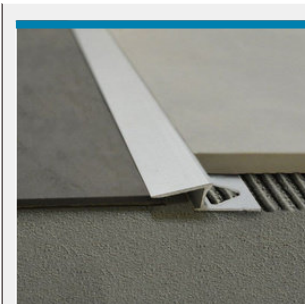

ARCHITECTURAL TRIMS & PROFILES / 01

Tile & floor trims

Profiles designed to protect and finish tile edges, separate flooring materials, and create smooth transitions between surfaces of equal or different heights.

01

02

03

04

05

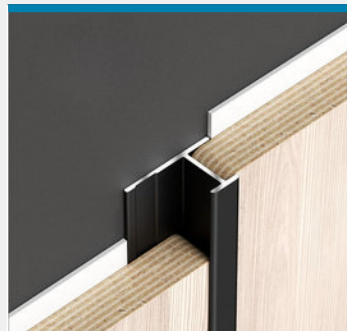

06

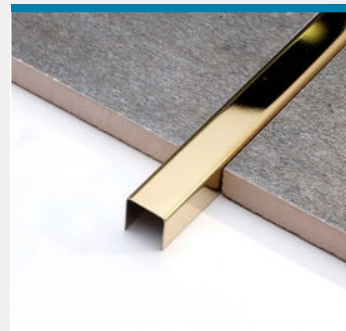

ARCHITECTURAL TRIMS & PROFILES / 02

Wall Trims

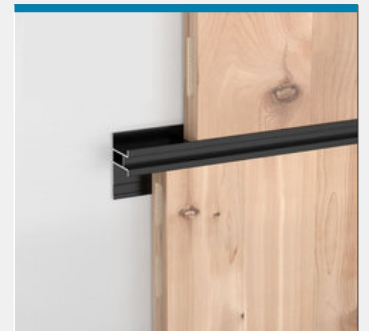

Profiles used to finish wall edges, joints, and transitions between tiles or wall-cladding panels.

01

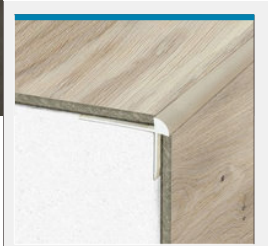

02

03

Edge & Corner Trims

01

02

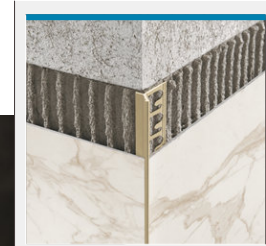

03

Edge Trims

Profiles used to finish and protect exposed tile, flooring, or wall edges from chipping and impact, while creating a clean straight line.

Corner Trims

Profiles designed to protect and finish internal or external corners where two surfaces meet, providing a neat and durable detail.

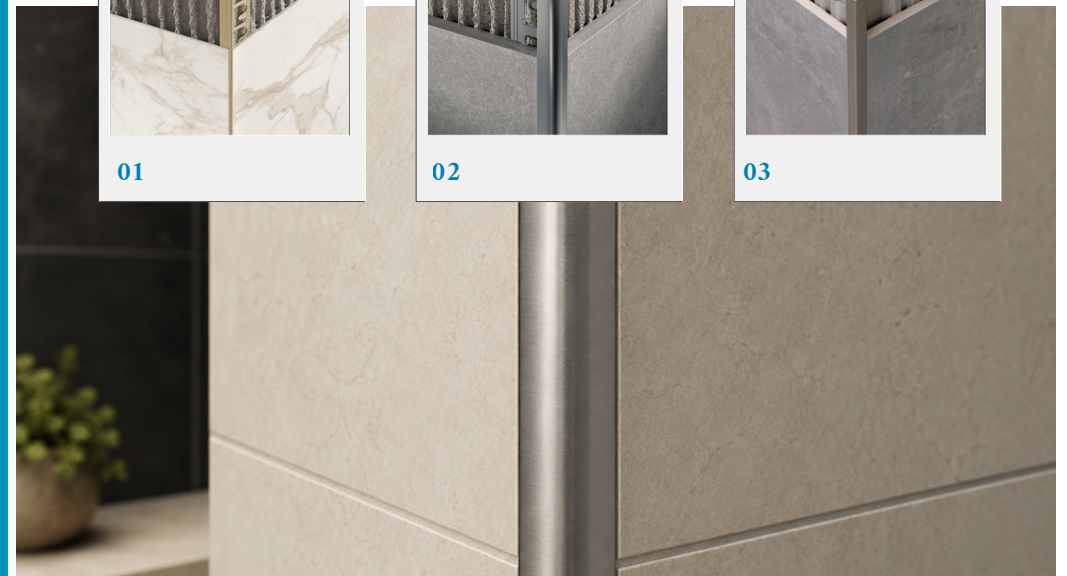

01

02

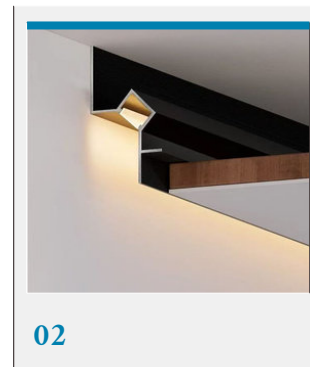

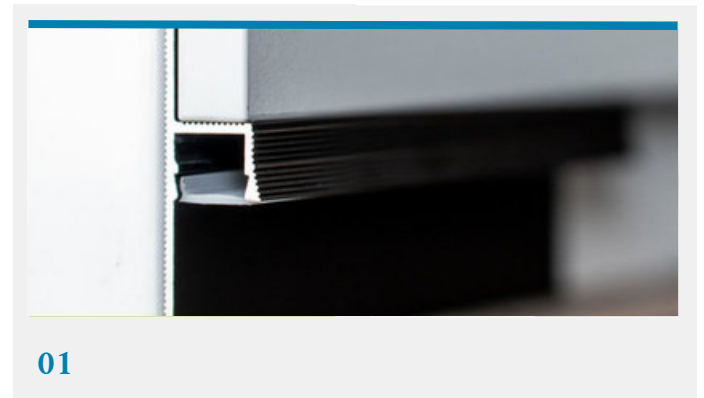

03

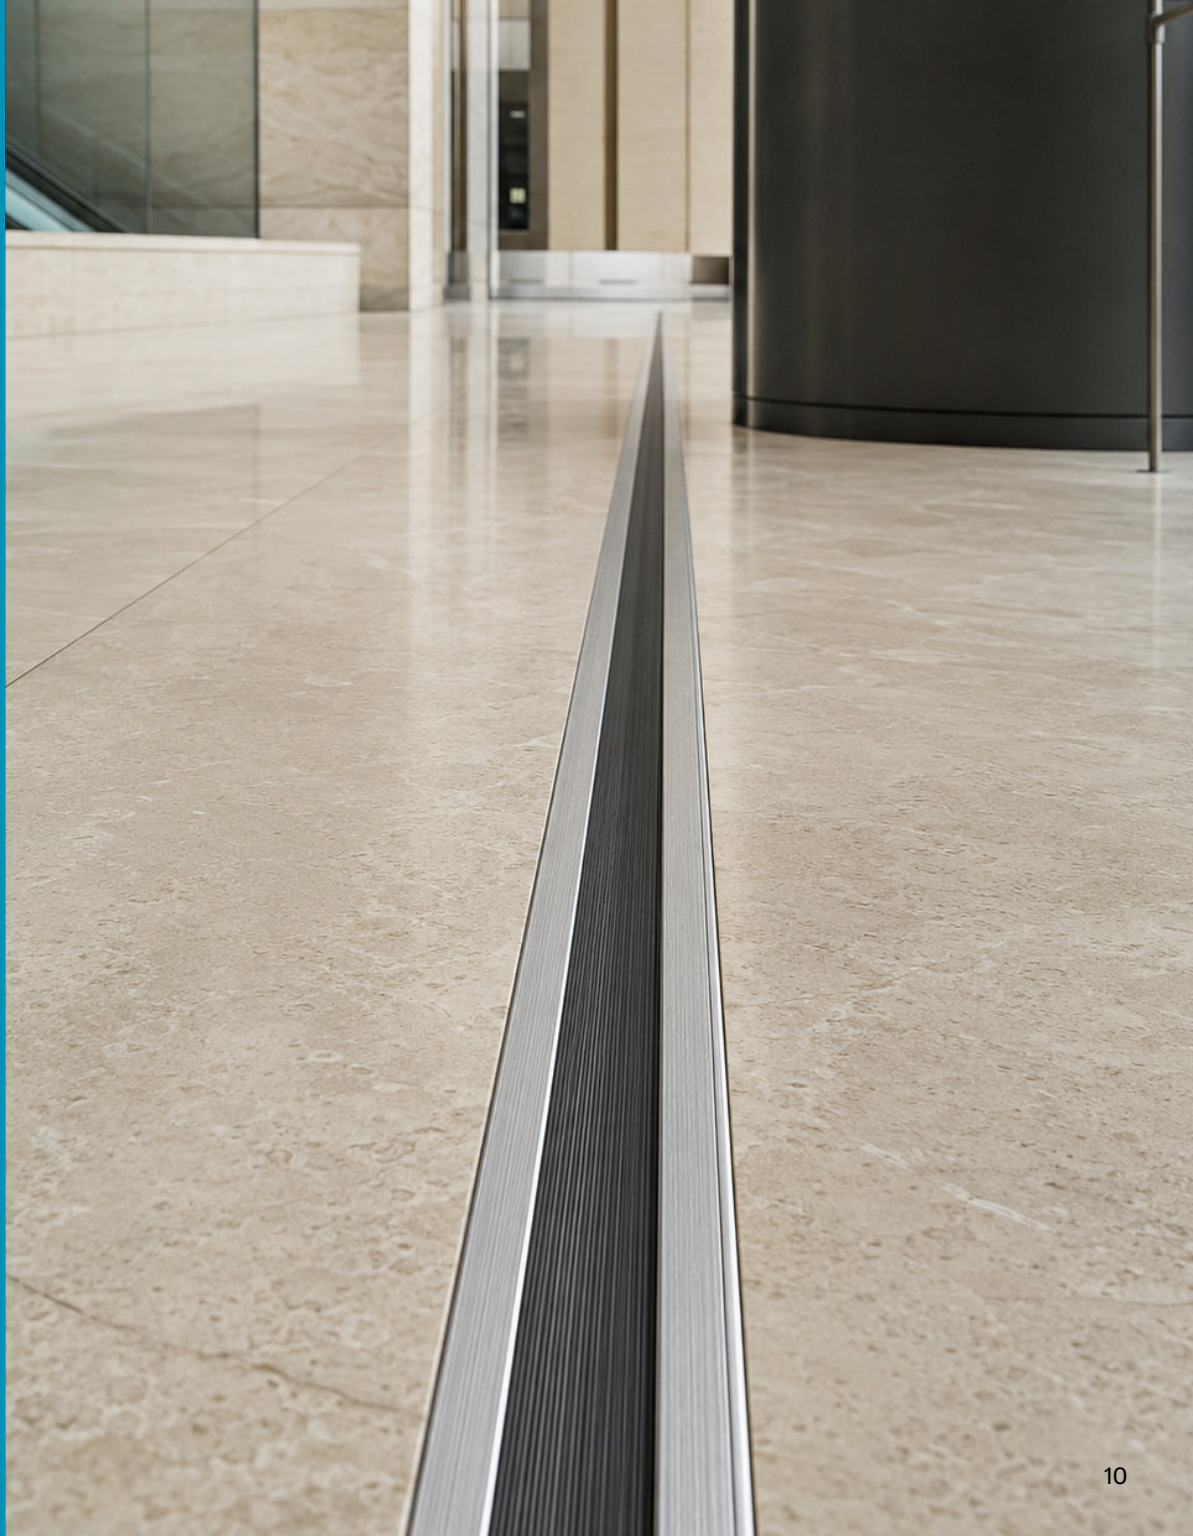

Shadow Gap Profiles

Profiles that create a slim recessed shadow line between walls, ceilings, or adjacent surfaces for a modern, seamless look.

Movement Joint Profiles

Profiles designed to absorb minor movement between finishes caused by temperature changes, vibration, or everyday building movement, helping prevent cracks and damage.

ARCHITECTURAL TRIMS & PROFILES / 06

Expansion Joint Profiles

Profiles designed to protect and finish internal or external corners where two surfaces meet, providing a neat and durable detail.

01

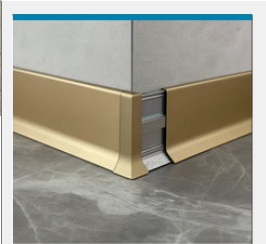

02

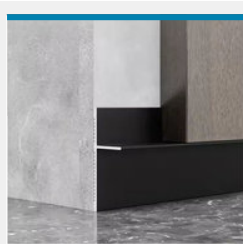

03

Skirting & Stair Nosing Profiles

01

02

03

Skirting Profiles

Baseboard profiles that cover the junction between the floor and wall while protecting the lower wall from dirt, moisture, and impact.

Stair Nosing Profiles

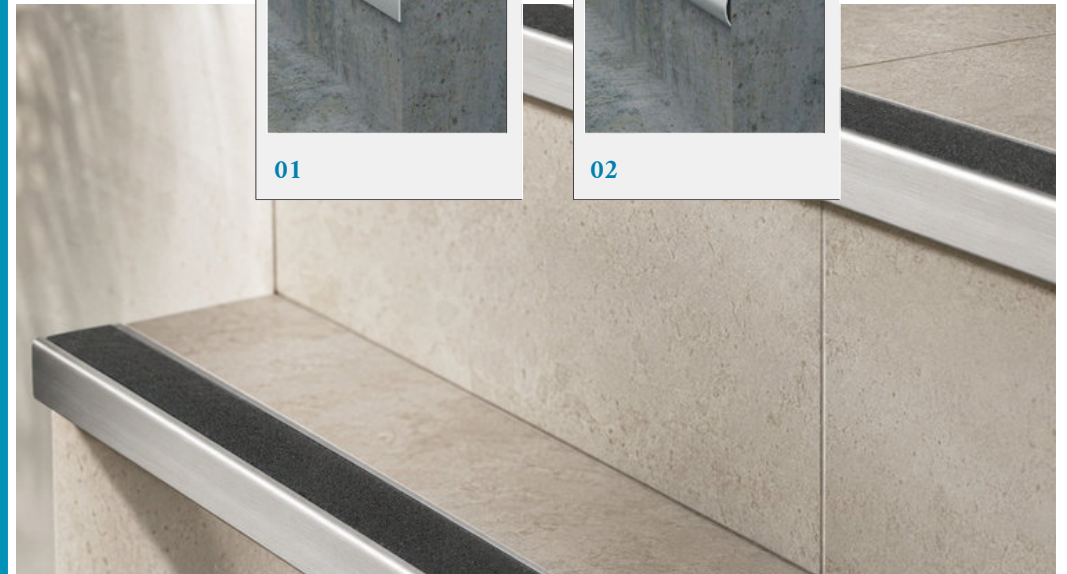

Profiles installed on stair edges to protect the tread, improve slip resistance, and provide a durable finished appearance.

01

02

Custom-Made Trims & Profiles

Custom-made trims and profiles are developed to meet the exact dimensions, materials, finishes, and technical requirements of each project. From concept and detailing to fabrication, every profile is tailored to ensure seamless integration, precise installation, long-term durability, and a refined architectural finish.

PRODUCT

02

Flooring Finishes

- Natural Wood Parquet Flooring
- Vinyl Flooring
- Carpet & Carpet Tiles
- SPC & LVT Flooring
- Cork Flooring
- Aluminium Entrance Matting

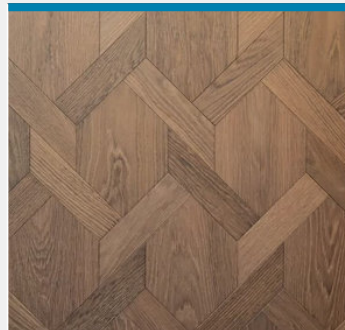

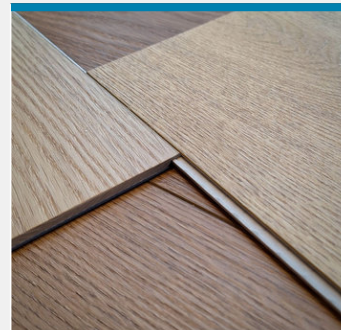

Flooring Finishes / 01

Natural Wood & Parquet Flooring

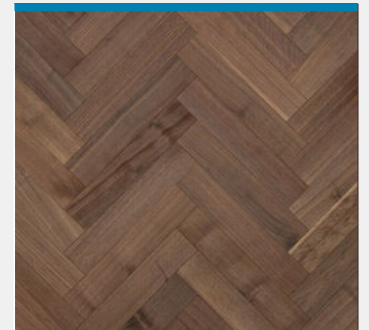

Flooring made from genuine wood, offering a warm, elegant, and natural appearance. Parquet flooring uses wood pieces arranged in decorative patterns such as herringbone or chevron.

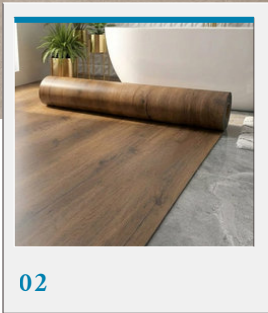

01

02

03

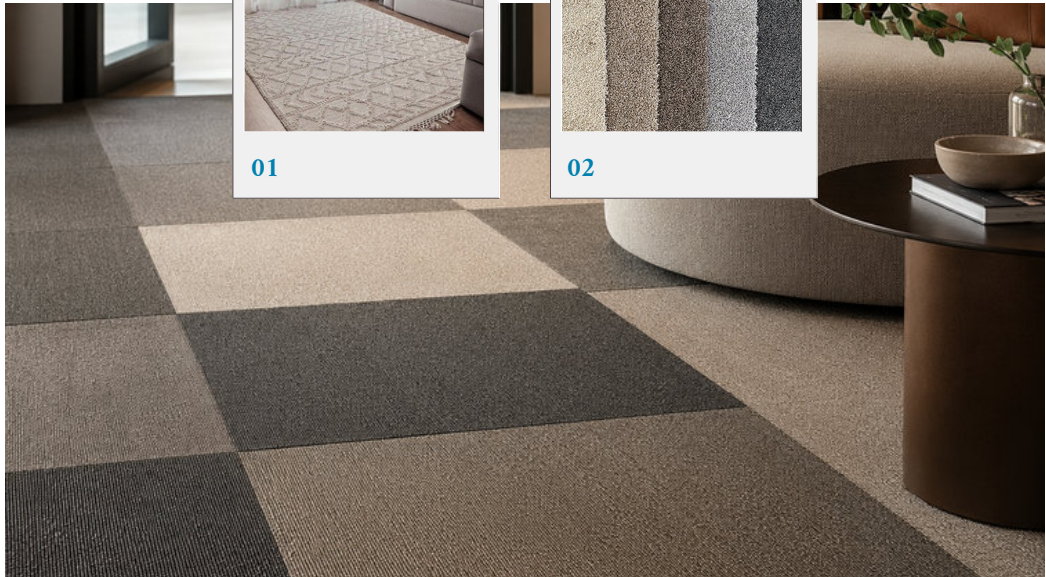

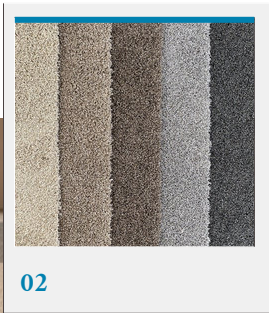

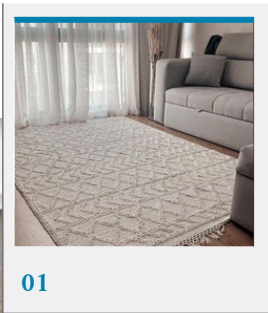

Vinyl Flooring

A durable and easy-to-maintain flooring solution available in various colours, patterns, and realistic wood or stone designs. It is suitable for residential and commercial spaces.

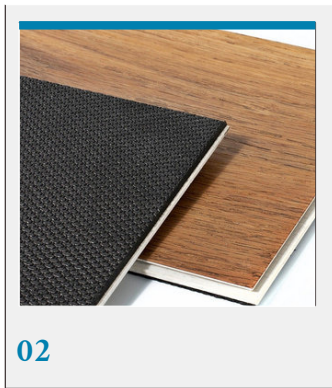

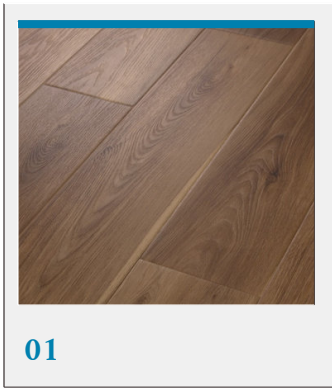

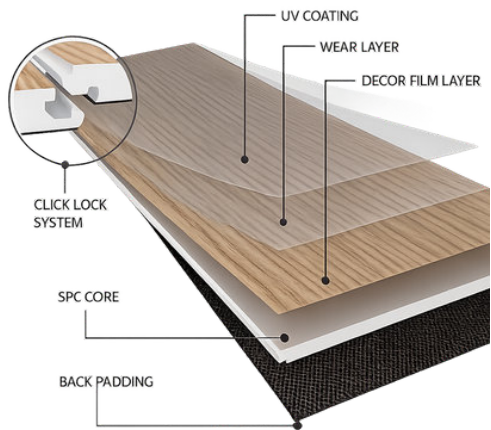

Carpet & Carpet Tiles

Soft flooring solutions that provide comfort, sound reduction, and a wide range of design options. Carpet tiles are modular, easy to install, and simple to replace when damaged.

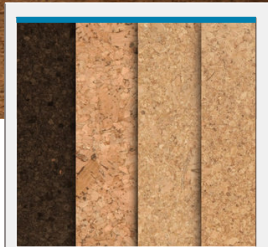

SPC & LVT Flooring

Modern resilient flooring designed to replicate the appearance of natural wood or stone. SPC provides a rigid and highly durable core, while LVT offers flexibility, comfort, and detailed surface designs.

01

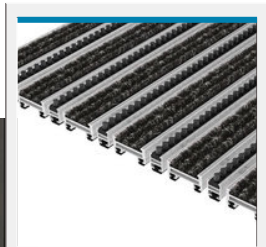

02

Cork Flooring

A natural and sustainable flooring material made from cork bark. It provides thermal insulation, sound absorption, and a soft, comfortable surface underfoot.

Aluminium Entrance Matting

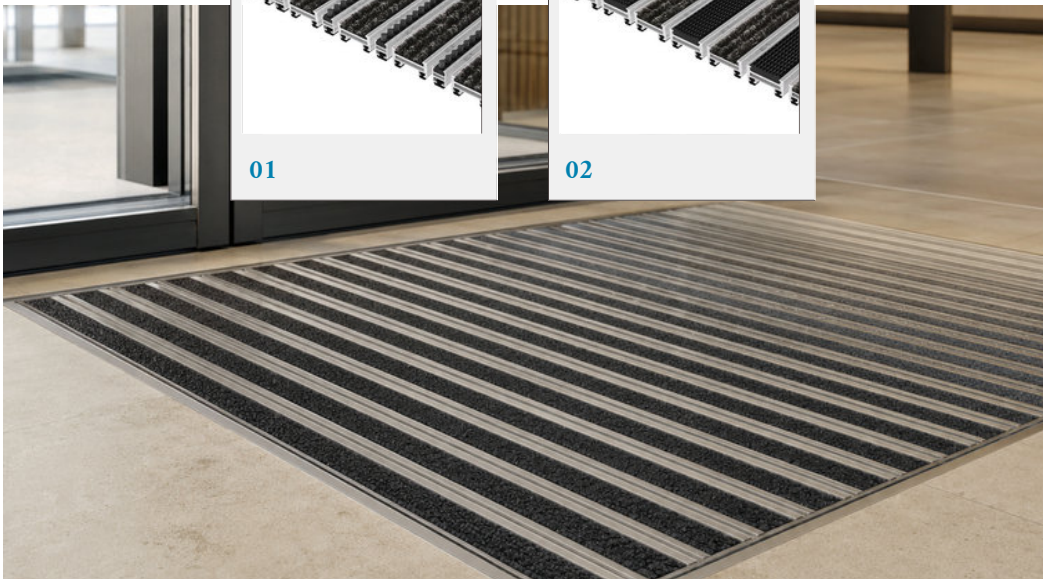

A heavy-duty entrance flooring system designed to remove dirt and moisture from footwear. It helps protect interior floors and maintain clean and safe entrance areas.

01

PRODUCT

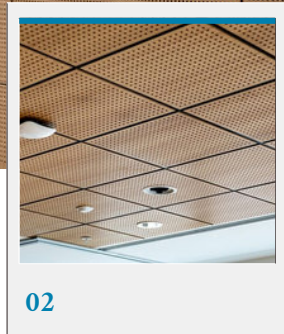

03

Acoustic Solutions

- Acoustic Wood Panels
- Acoustic Panels
- Acoustic Fabric
- Acoustic Wood Wool Panels
- Acoustic Plaster
- Acoustic Spray
- Acoustic Cabins

Acoustic Wood Panels

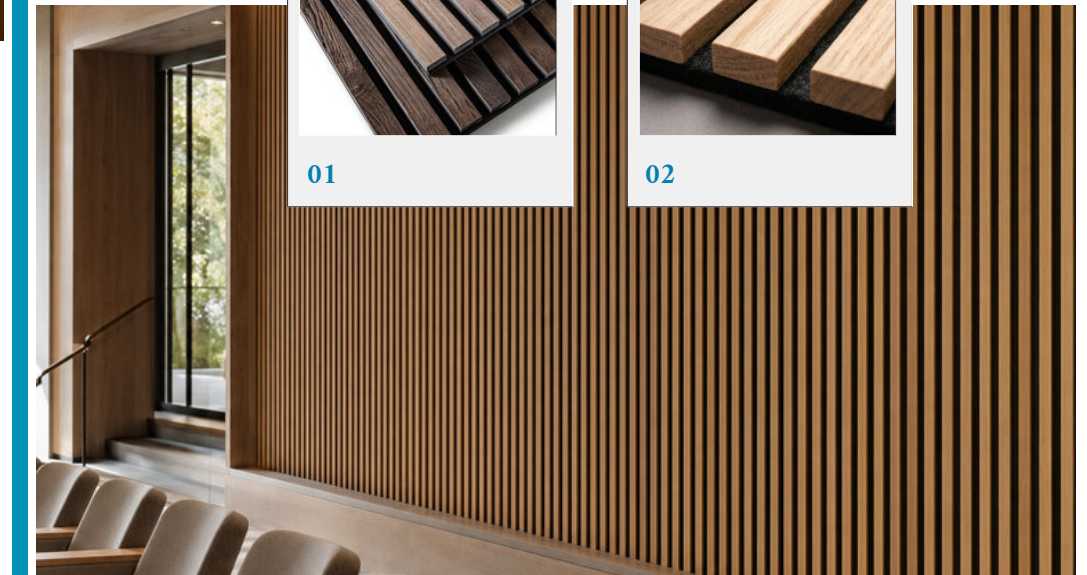

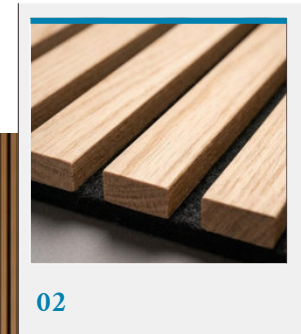

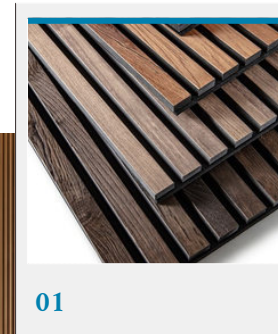

Perforated Wood Acoustic Panels

A natural and sustainable flooring material made from cork bark. It provides thermal insulation, sound absorption, and a soft, comfortable surface underfoot.

Slatted Wood Acoustic Panels

A heavy-duty entrance flooring system designed to remove dirt and moisture from footwear. It helps protect interior floors and maintain clean and safe entrance areas.

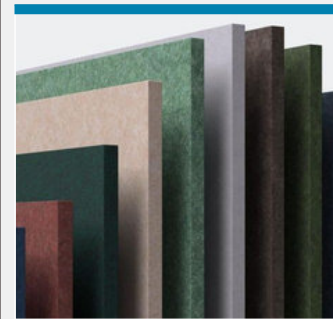

Acoustic Solutions / 02

Acoustic Panels

Sound-absorbing panels installed on walls or ceilings to reduce echo and improve sound quality within a space.

01

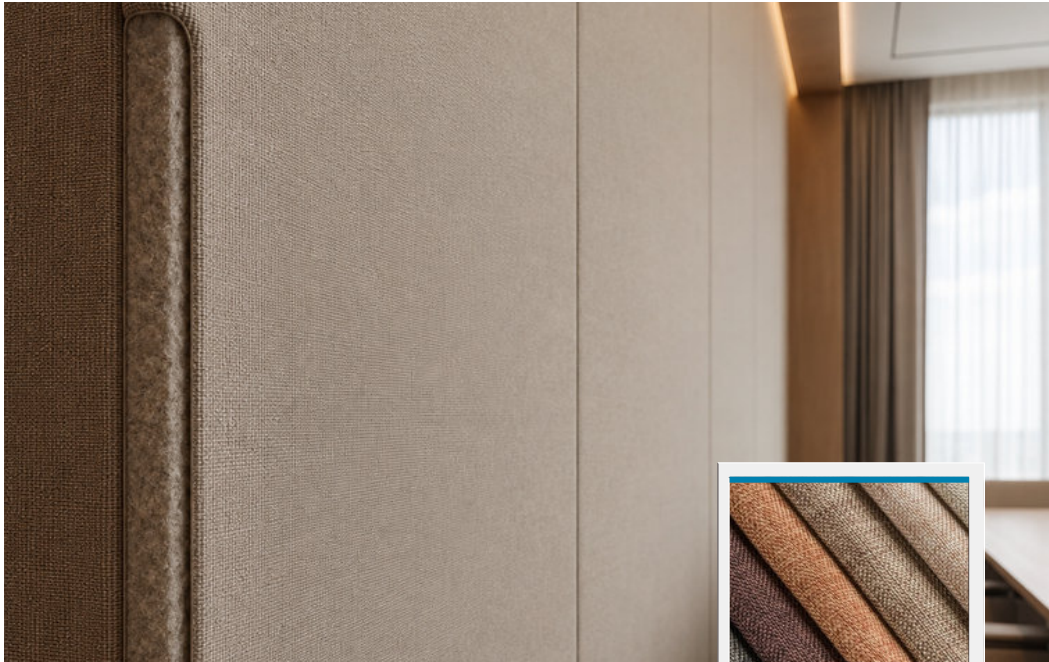

02

Acoustic Wood Wool Panels

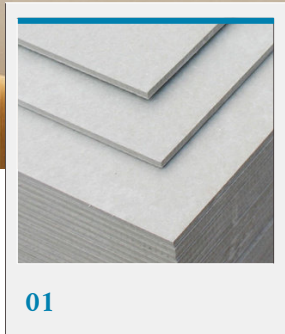

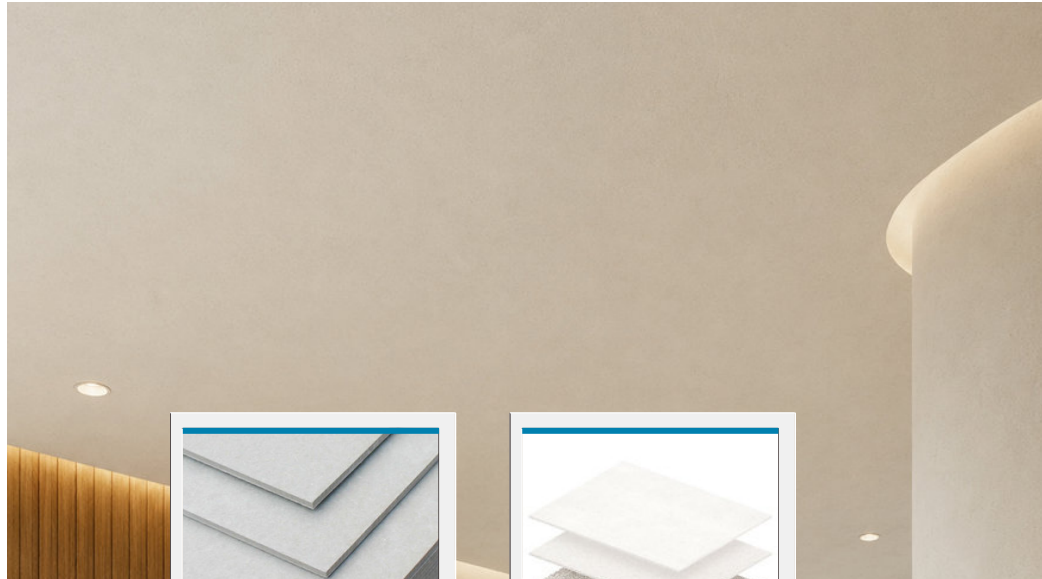

Durable panels made from wood fibres bonded with cement, providing sound absorption, thermal performance, and a natural textured finish.

Acoustic Fabric

Durable panels made from wood fibres bonded with cement, providing sound absorption, thermal performance, and a natural textured finish.

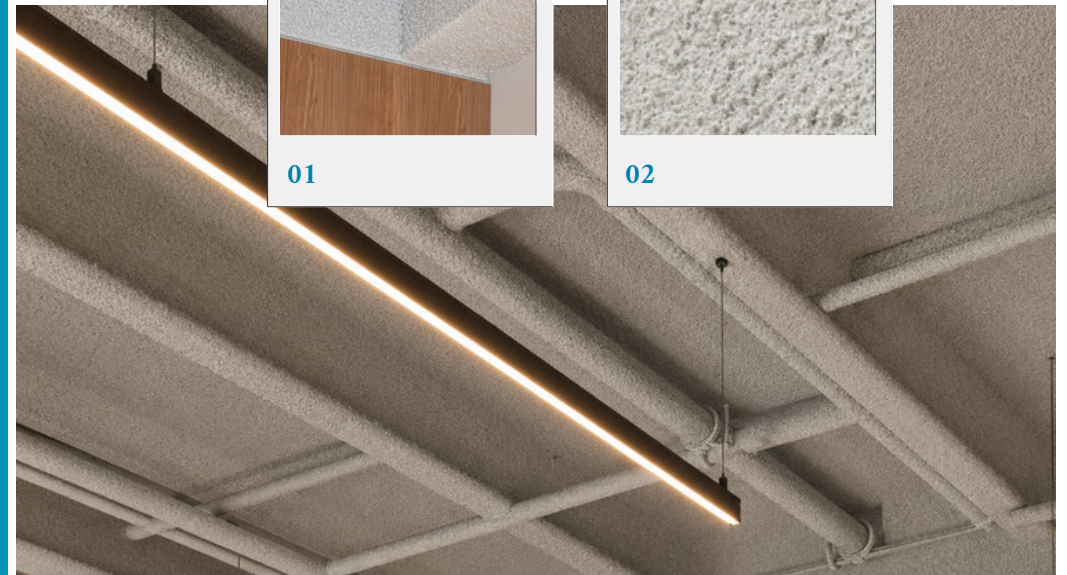

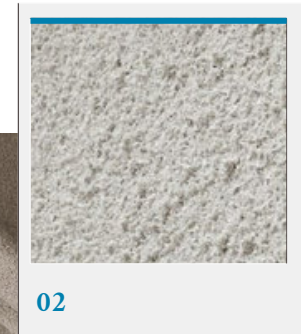

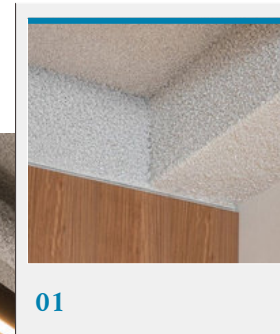

Acoustic Plaster

A seamless sound-absorbing plaster system applied to walls or ceilings to reduce noise while maintaining a smooth architectural appearance.

Acoustic Spray

A spray-applied acoustic finish made from sound-absorbing fibres or materials, suitable for ceilings and complex surfaces.

Acoustic Cabins

Enclosed sound-insulated pods that provide quiet and private spaces for meetings, phone calls, or focused work.

Wall & Ceiling Systems

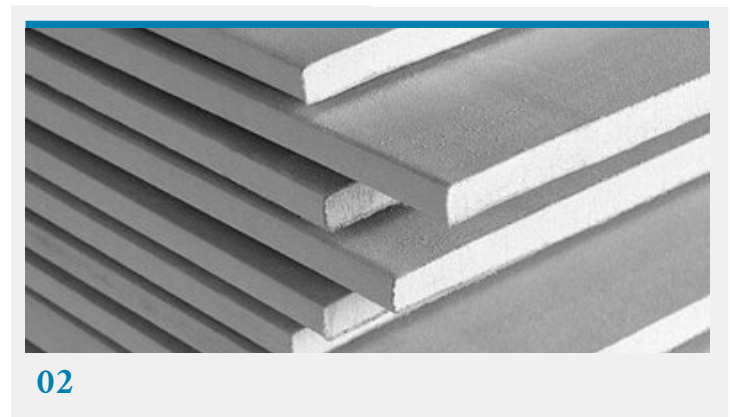

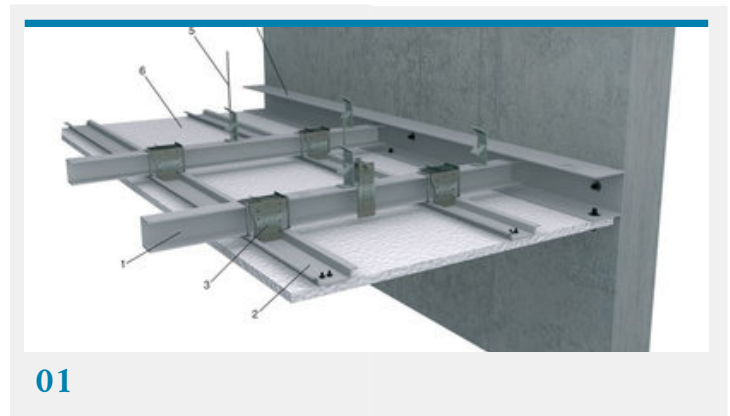

- Gypsum Board Systems
- Clip-In Metal Ceilings
- Lay-In Metal Ceilings
- Expanded Metal Mesh Panels
- Wallpaper
- Wall Cladding
- Curtains & Blinds

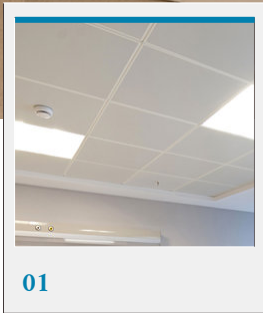

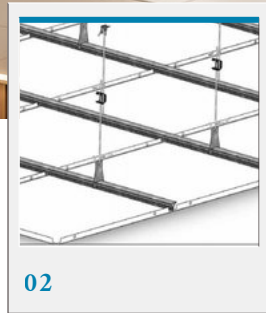

Gypsum Board Systems

Lightweight wall and ceiling systems used to create partitions, suspended ceilings, and decorative features.

01

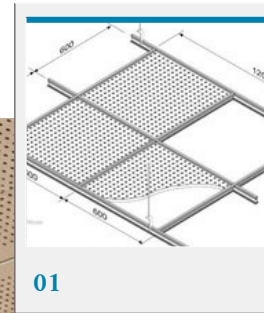

02

Clip-In Metal Ceilings

Metal ceiling panels securely clipped into a concealed suspension system, providing a clean and seamless appearance.

Lay-In Metal Ceilings

Removable metal ceiling panels placed within a visible grid system, allowing easy access to services above the ceiling.

01

02

Expanded Metal Mesh Panels

Durable metal panels with an open mesh design, used for façades, ceilings, partitions, and decorative applications.

01

02

03

Wall & Ceiling Systems / 01

Wallpaper

Profiles designed to protect and finish internal or external corners where two surfaces meet, providing a neat and durable detail.

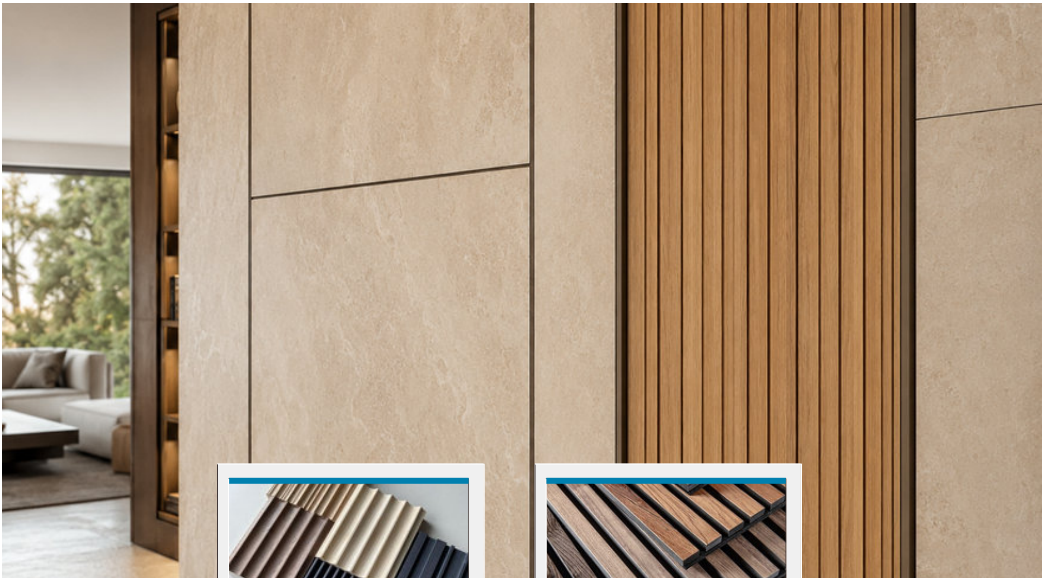

01

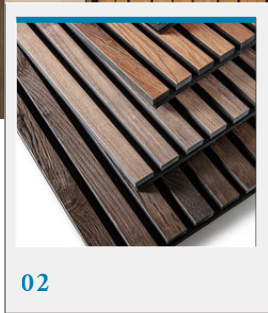

02

03

01

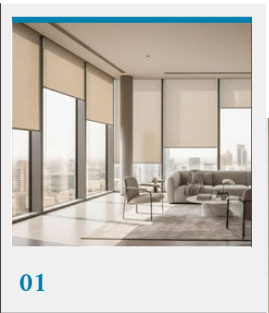

02

Wall Cladding

Decorative and protective materials installed over walls to improve their appearance, durability, and performance.

Curtains & Blinds

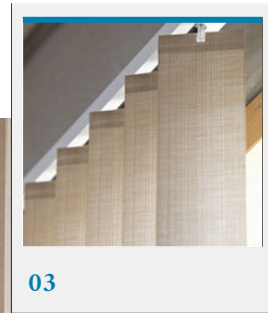

Window covering solutions used to control light, provide privacy, and complement the interior design.

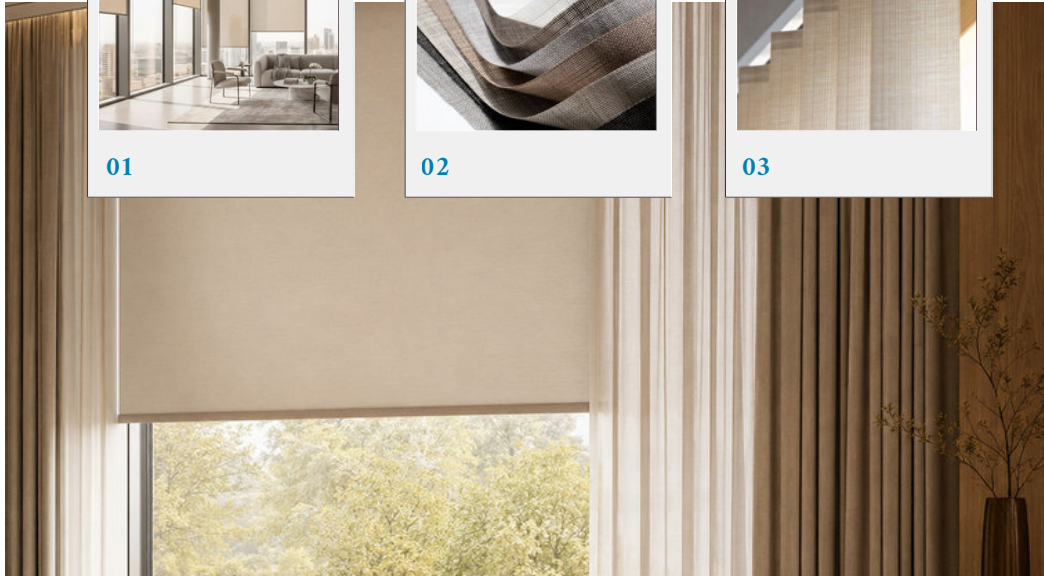

01

02

03

PRODUCT

05

Architectural Materials

- Clay Sheets
- Rammed Earth
- Bamboo
- Quartz & Marble Slabs
- Natural Stone & Terrazzo

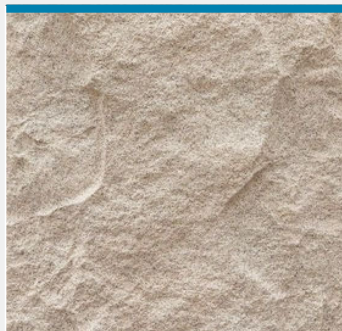

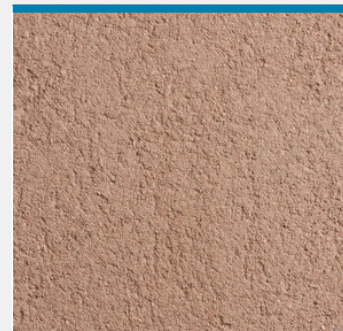

Architectural Materials / 01

Clay Sheets

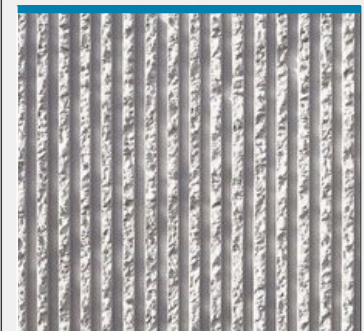

Thin decorative sheets made from natural clay, used for wall cladding to create a warm and textured appearance.

01

02

03

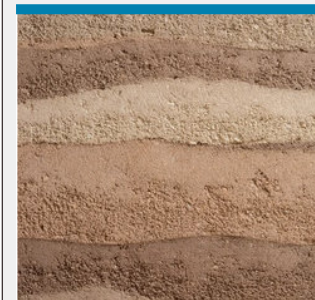

Rammed Earth

A natural building material made by compacting layers of soil, creating strong walls with a distinctive earthy finish.

01

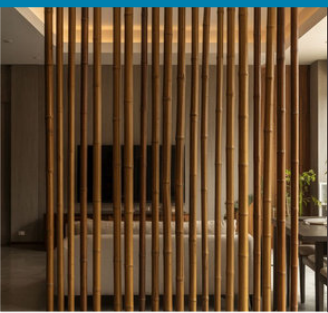

02

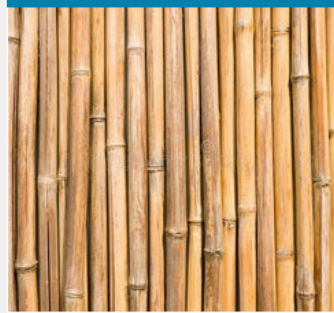

03

Bamboo

A lightweight and sustainable natural material used for wall panels, ceilings, flooring, and decorative features.

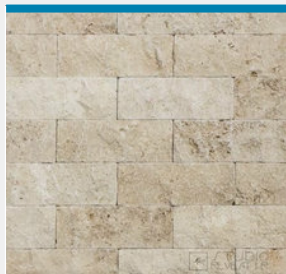

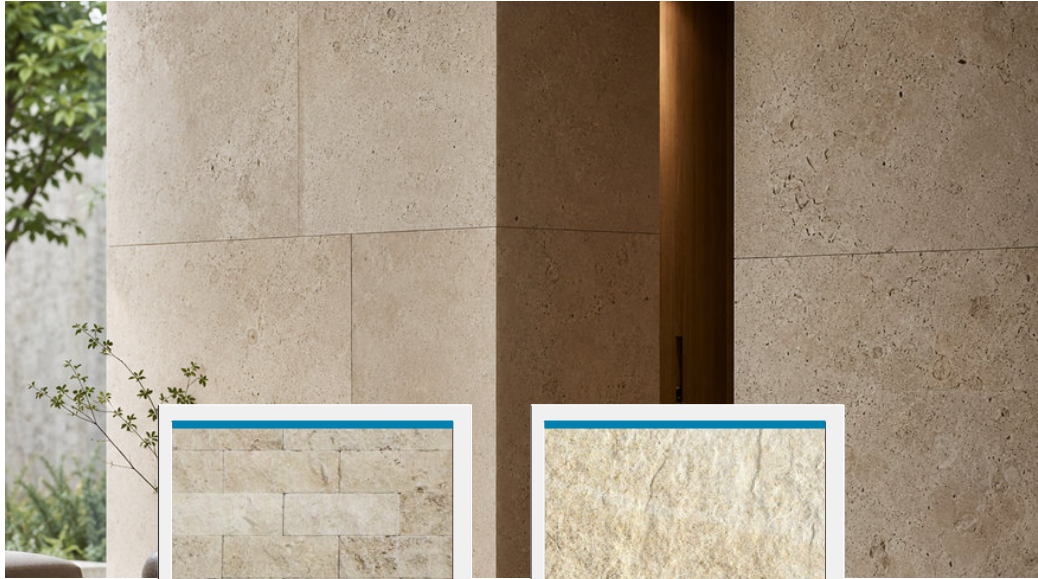

01

02

01

02

Natural Stone

Naturally sourced materials such as granite, limestone, and travertine, used for flooring, cladding, façades, and landscaping.

Terrazzo

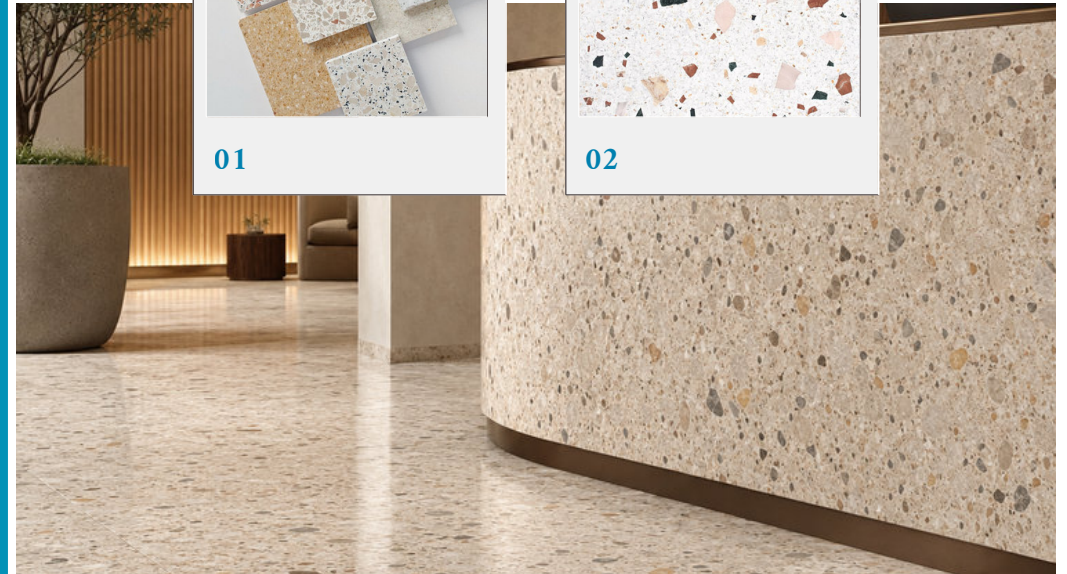

A durable decorative material made from marble, stone, or glass chips combined with cement or resin, used for floors, walls, and countertops.

01

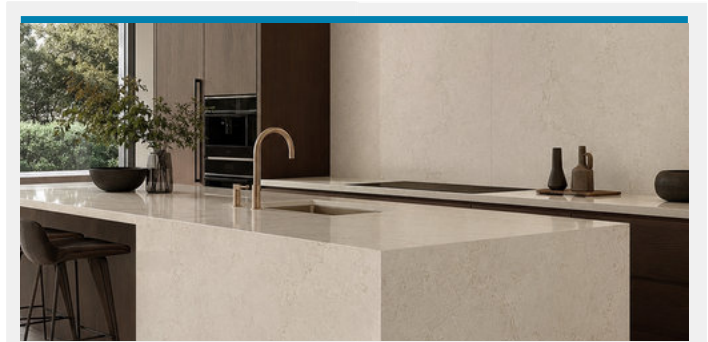

02

Quartz & Marble Slabs

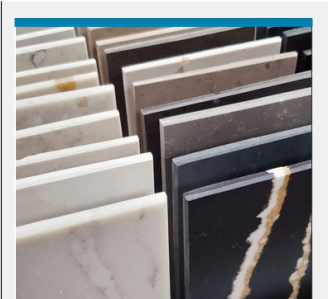

Premium stone slabs available in natural and engineered finishes, offering durability, elegant patterns, and a refined appearance for floors, walls, countertops, and decorative applications.

01

02

03
